

1374 North West Ridge Drive
Strafford, Mo 65757

Full service software and web development / hosting services

Business Basic hosting + full service support **\$99 /mo** per website

Advanced Business hosting + basic site building + full service support **\$199 /mo**

Elite Business hosting + **advanced* website build / design + full service support **\$299 /mo**

Premium Business hosting + **advanced* website build / design + on staff programming support of up to 10 hours per month **\$499 /mo**

Business Basic, Advanced Business, and Elite Business class hosting includes domain name registration (one domain suffix), building the website per your specifications.

**Advanced* programming services include custom dynamic content based websites, e-commerce, custom written web services, and anything requiring database level programming (SQL) in general.

Business class hosting includes:

Redundant Web Hosting is designed to keep downtime for your email and websites to an absolute minimum. It is targeted at businesses and consumers who need a very high level of uptime but don't have a large IT budget to spend.

Redundant hosting is ideal for small online stores, affiliate marketers, budding entrepreneurs, web designers, photographers, small businesses, or anyone who needs the peace of mind that can be found in enterprise class web hosting.
