Why Choose Moonbeam Development?

We are a team of dedicated programming, design and engineering professionals located in Springfield Mo. We were established in 1999 by Richard Harris, CEO and Founder.

We believe that forming a good relationship with you should always come first. We don't just want to build you a software solution, we get to know your business so we can build you a software solution that helps you! One of our ways of doing that is staying in contact with you from the beginning of your project, during, and even after it's completion so we insure the solution you are paying for is what you get.

Over the years, we have worked to produce software and web solutions that can address the complex business, social, administrative, organizational and communicative needs of the Web in a simple way – no matter how large or small your company is. The more we work for you, the more simple your job becomes.

We are an award-winning development team that delivers user-friendly content Management Systems (CMS) known for our inbuilt modularity, stability, security, functionality and flexibility.

We develop websites, apps, and software for companies and organizations in media, government, education, and business. Utilizing a vast range of technologies, we develop e-commerce applications, newspaper websites, resource directories, blogs, portals, image galleries, polls and forums and just about anything else you can dream up!

Clients

A few of our clients include Astronomy Technology Today magazine, Prime Trucking, Assemblies of God World Headquarters, McKesson, Crowd Funnel, Basestar LLC, and Pellegrino’s School of Music. You can find more on our website.

Mobile app development

We are sponsored and endorsed by Google™, Apple™, Airpush™, Leadbolt™, and Pontiflex™, for outstanding performance in the global mobile and web marketplaces. In addition we've received two awards after achieving over 1 million downloads on a single app.

Just recently, we achieved the high honor of having one of our apps rank #29 in the Apple app store over all paid apps (over 500,000 apps available).

We were also featured in Forbes magazine for our presentation in New York City when we spoke about our success in the Android marketplace.

In addition, a book authored by Richard Harris titled “Making Money with Android” which has become a staple guide for developers to learn how to earn revenue from their Android based
On average we receive 25 million impressions per month from our apps and websites. We are active mobile developers for the Google Android platform, and the Apple iOS platform with over 80 apps published and 1 million impressions per day.

Migration

If you are not happy with your current website or mobile app, we can redesign and develop it while still maintaining all of the content available there using our migration services. Our other services include Moonbeam consultancy, installation, configuration and customization of any web, software, or app platform, modules, add-ons and themes.

For everything you need

We like to call ourselves a “one stop shop” for all of your business web, mobile app, and software needs. We can design, develop, and host your solution right here in Springfield, Mo.

Please let me know if you have any questions.

Thank you for your consideration of Moonbeam Development.
